

The scatter plot displays 100 data points. The points are distributed as follows:

- A horizontal line of 20 points at the top of the plot.
- A vertical line of 20 points on the right side of the plot.
- A cluster of 10 points in the upper-left quadrant.
- A cluster of 10 points in the upper-middle quadrant.
- A cluster of 10 points in the lower-left quadrant.
- A cluster of 10 points in the lower-middle quadrant.
- A cluster of 10 points in the lower-right quadrant.
